Our school strategies are on track to meet or exceed our targets

During 2015, we have focused on maximising the benefits of this funding for our students. After reviewing our *Great Results Guarantee* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our strategies to ensure that every student succeeds.

Strategies implemented include:

- Targeting specific groups of students by providing them with access to intense, researched-based intervention and enrichment (extension) programs and appropriate resources
- Provision of professional development and training to staff (teachers and teacher-aides) to assist with explicit teaching strategies and intervention and extension
- Additional intervention and extension coordinated through employment of a STLaN, Lead Teacher-Reading Lead Teacher-Curriculum, Lead Teacher-Numeracy and Lead Teacher-Enrichment/Extension
- Regularly reviewing student performance data
- Development of a whole-school individual student data tracking system in Reading and Mathematics
- Development of a whole-school individual tracking system of support and extension
- Review and realignment of Whole School Assessment Schedule and targets with Regional targets
- Providing professional development for teachers and support staff in:
 - Interpreting student achievement data
 - Differentiation of curriculum and pedagogy
